The TIBCO Cloud Integration platform includes TIBCO ActiveMatrix BusinessWorks 6 software, used in mission-critical IT environments for integrating traditional systems with today's web, mobile, and social solutions. This highly interactive course provides a general overview of TIBCO solutions and fundamentals of the TIBCO BusinessWorks 6 solution.

Through hands-on labs, students will use the standards-based TIBCO Business Studio process modeling environment to design and test web and RESTful services. Debugging options using a simple step-by-step debugger will be examined. Students will also deploy a TIBCO BusinessWorks application in the cloud, in the enterprise, and in a container.

Learning Objectives

- Introduce TIBCO BusinessWorks software
- Explore and develop RESTful services
- Test and develop TIBCO BusinessWorks applications
- Explore application deployment to the enterprise, in containers, and on the TIBCO Cloud

Course Prerequisites

- none

**TIBCO NOW product knowledge courses are a condensed version of the full one day fundamental courses offered in TIBCO Academy. Some of the topics discussed in the data sheet may be condensed or eliminated due to time constraints.*
